INTEREST

Interest shall be payable in respect to all amounts payable under a fee or charge if the amount is not paid by the due date. The interest rate applicable to amounts not paid by the due date calculated in accordance with the Water Act 1989 (Vic) will be determined by the Essential Services Commission at a later date. This information is available at www.gmwater.com.au/about-my-account. Prior to applying interest we will inform the customer when interest is to be applied to the outstanding amounts. Interest will not be payable on overdue account balances by customers who enter into and comply with a payment arrangement. This applies for balances from a prior period where a payment arrangement is still in force. Payments are applied on the following basis: Legal costs owing (if any); Interest owing (if any); Arrears owing (if any); Current rates and charges (divided evenly across all charges), unless otherwise requested by the owner.

HOW OUR FEES AND CHARGES ARE DETERMINED

GMW determines fees and charges for the forthcoming financial year following consultation with customers. Customers may participate or provide feedback on GMW's process for setting its fees and charges by calling us on 1800 013 357 or emailing us at reception@gmwater.com.au

Our regulated and prescribed annual and miscellaneous fees and charges are approved by the Essential Services Commission.

Planning and management charges are charges determined by or on behalf of an agency of the Commonwealth or an agency of a State, excluding charges determined by a local government body. The Minister for Water delegated certain functions and responsibilities under the Water Act 1989 (Vic) to GMW in the Instrument of Delegation dated 13 December 2019. This includes determining fees for the issuing, varying or cancelling of water use or works licences. Additionally, Water Share and Allocation Application fees and charges and fees and charges related to the Victorian Water Register, excluding the Water Register Fee, are prescribed under Victorian regulations¹¹.

Tariffs for Customer, Water Delivery, Surface Drainage, Subsurface Drainage, Water Supply, Flood Protection, Entitlement Storage service types are calculated in accordance with the 2023/24 Tariff Procedure, which is available at www.gmwater.com.au/pricing and GMW's office located at 40 Casey Street, Tatura 3616.

UNDERSTANDING YOUR FEES AND CHARGES

Above Entitlement Storage Fee is payable by customers who hold more water in storage than their entitlement volume.

Access Fee recovers the costs of ensuring water is accessed in line with management rules and plans. This includes the management of allocations, rosters, restrictions and water ordering. This fee is payable by customers with a surface water licence.

Area Fee recovers a proportion of the costs of operating, maintaining and renewing the drainage network that services your irrigation district. This fee is payable by customers in the irrigation districts.

Bulk Water Entitlement Fees are payable for the storage and the delivery of water to Irrigation Infrastructure Operators, operators of reticulated water systems, and customers who divert bulk water directly from a watercourse for use and is made available through a service that is provided for the storage or delivery of water that is primarily stored or delivered on river relating to the Murray-Darling Basin. These fees are payable only by customers with bulk entitlements or environmental entitlements.

Capital Charge for New Groundwater Entitlement relates to the sale of a groundwater entitlement. This is a one-off charge per megalitre where space is available under management area groundwater caps. See www.gmwater.com.au/capital-charges for more information on the Capital Charge for New Groundwater Entitlement.

Community Surface Drainage Fee recovers the cost of administering the community surface drainage scheme in your area. This fee is payable by the owner of a property within a district or area, who is a participant in a community surface drainage scheme.

Customer Fee recovers the administrative costs of maintaining your land and water records, billing, debt management and central customer service. This fee is payable by all of our customers.

Delivery Share Reservation Fee applies to landowners in irrigation districts who choose to reserve access to delivery systems for a limited period while they are developing or expanding agricultural enterprises.

Distribution Access Fee is equivalent to the Infrastructure Access Fee but is payable by an urban water corporation whose bulk water is delivered by irrigation and/or water supply districts.

Distribution Use Fee is equivalent to the Infrastructure Use Fee but is payable by an urban water corporation whose bulk water is delivered by irrigation and/or water supply districts.

Drainage Diversion Agreement Fee recovers the cost of managing access to water available in the drains in your irrigation district. This fee is payable by Customers with a Drainage Diversion Agreement.

Drainage Diversion Site Fee recovers the costs of managing, maintaining and renewing drain diversion service points in your irrigation district. This fee is payable by customers in the irrigation districts. **Drainage Diversion Site (High Flow)** Fee recovers the costs of managing, maintaining and renewing high flow diversion service points in your irrigation district. This fee is payable by customers with Drainage Diversion Agreements.

Entitlement Storage Fee covers the cost of operating and maintaining water storages that service your regulated river system. The costs are charged per ML of the type of entitlement you hold. This fee is payable by customers with water shares for regulated rivers. Event Fees are charges for private, community or commercial events on or near GMW's waterways and are charged per day. See www.gmwater.com.au/recreation-tourism/event-permits for more information on Event Fees.

Flood Protection Fee relates to the Loch Garry structure mitigating flooding for a defined area. This fee applies for each hectare in the Loch Garry area to recover the costs of operating and maintaining the structure. This fee is payable by all customers in the Loch Garry district.

Groundwater Application Fees are payable in relation to applications for licences to undertake works relating to groundwater or to take and use groundwater.

Houseboats Fees relate to applications for a licence and holding a houseboat licence at Lake Eildon. See www.gmwater.com.au/recreation-tourism/houseboats for more information on Houseboats fees.

Information Statements and Special Meter Reading Fees are payable in relation to applications for information on the Water Register.

Infrastructure Access Fee applies to the amount of MLs per day of delivery share you hold and it recovers a portion of the cost of operating, maintaining and renewing the delivery network in your irrigation area. The delivery network can include channels, pipes, bridges, road crossings, siphons and subways. This fee is payable by irrigation and D&S customers with delivery shares.

Infrastructure Use Fee recovers a portion of the costs of operating, maintaining and renewing the delivery network in your irrigation area. The fee applies per ML of water used during the season on your property. This fee is payable by irrigation and D&S customers with delivery shares. The **Casual Infrastructure Use Fee** applies to each ML of water you have delivered during the season in excess of your Annual Delivery Allowance.

Irrigation Districts Application Fees are fees and charges applicable to the Shepparton, Central Goulburn, Rochester-Campaspe, Loddon Valley, Murray Valley and Torrumbarry irrigation districts. Local Benefit Area Fee recovers a portion of the costs of providing subsurface drainage services in your irrigation district. This fee is payable by customers in the irrigation districts.

Local Benefit Water Use Fee recovers a portion of the costs of providing subsurface drainage services in your irrigation district. This fee is payable by customers in the irrigation districts.

Municipal Local Benefit Area Fee recovers a proportion of the costs of operating, maintaining and renewing the drainage network that services the municipal area from local government entities.

Private Dam Fees are fees and charges related to applications for the registration of privately-owned farm dams or licences to take water from privately-owned farm dams.

Recreation and Land Management Miscellaneous Fees are miscellaneous fees and charges relating to applications for licences, works permits, land developments and other additional fees.

Regulated Rivers and Streams Application Fees are miscellaneous fees and charges related to the Murray-Darling Basin Authority or GMW's weirs, storages or dams on the river system to control the flow of water.

Resource Management Fee recovers the costs of developing, managing and reviewing resource management plans for unregulated surface water and groundwater. This fee is payable by customers with groundwater licences for purposes other than for domestic and irrigation purposes. Regulated surface water diverters do not pay this fee; instead, they pay the Entitlement Storage Fee on water shares they hold.

Regional Urban Storage Ancillary Fee recovers the costs of managing the recreational component of storages which are not recovered by leasing and licensing fees. This fee is payable by Urban Water Corporations who hold bulk water entitlements.

Subsurface Drainage Fee recovers the costs of providing subsurface drainage services in your irrigation district. This fee is payable by customers in the irrigation districts.

Service Point Fee – Diversions

Applicable to Surface Water and Groundwater Diversifiers. These cover the costs of compliance, monitoring, measuring use and, where installed, maintaining meters at each diversion site:

- **Service Point Fee – Unmetered** refers to service points that do not have a meter installed, or are used only for domestic and stock purposes.
- **Service Point Fee – Metered (excluding domestic and stock)** refers to service points where a meter is installed and is used for purposes other than domestic and stock.

These fees are payable by customers with surface water licences and/or groundwater licences.

Service Point Fee – Water Delivery and Water Supply recovers the costs of operating and maintaining service points (meters and outlets) which connect your property to our assets in your irrigation or water supply district. In relation to water supply districts, this fee will only apply in relation to the domestic and stock service point. In relation to irrigation districts, this fee applies for each of the following service points:

- **Domestic and Stock (D&S)** fee recovers the costs of operating and maintaining domestic and stock service points.
- **Local Read** means a service point that is manually operated and the meter reading is manually collected.
- **Remote Read** means a service point with some electronic features which is manually operated and the meter reading is automatically recorded.
- **Remote Operate** means a service point with electronic features that is automatically operated and the meter reading is automatically recorded.

These fees are payable by irrigation and D&S customers.

Technical Advice for High Risk or Complex Applications Fee is charged for advice provided by GMW regarding high risk or complex licence applications. For example, this fee may be charged in relation to obtaining additional information such as a report of Hydrological and/or Ecological assessments for unregulated surface water applications.

Termination Fee is charged to a customer who holds a delivery share if they terminate all or part of that share.

Unregulated Rivers and Streams Application Fees are miscellaneous fees and charges when the flow in the river or stream is not controlled by Murray-Darling Basin Authority or GMW's weirs, storages or dams.

Water Allowance Storage Fee recovers the costs of operating and maintaining the water storages that store water for water supply districts. This fee is payable by water supply customers.

Water Share and Allocation Applications relate to applications to transfer, divide, consolidate, issue, cancel, vary etc. water share and/or water allocations.

Water Supply District Application Fees are miscellaneous fees and charges applicable to the Tungamah, East Loddon, East Loddon North, West Loddon, Normanville and Mitiamo districts. Water Register Fee recovers the costs of storing your records on the Victorian Water Register (Register) and is levied based on the number of your water entitlements. Examples of water entitlements are bulk entitlement, water share, section 51 licence, supply by agreement and water district water allowance. This fee is payable by all customers with water entitlements stored on the Register. Water Use Fee recovers a portion of the cost of operating, maintaining and renewing the drainage network in your irrigation district.

NOTES

1. Infrastructure fees for water delivery in the Goulburn-Murray Irrigation District (excluding Woorinen) are set for the period 15 August 2023 to 15 May 2024.
2. These fees are indicative: The figures shown will generally apply to terminations requested to apply within 6 months of a customer submitting a written information request. For terminations requested to apply more than 6 months after the written information request is submitted, the termination fee will be the fee that is applicable at the date of termination and calculated in accordance with Part 10 of the Water Charge Rules 2010 (Cth) as at the termination. This termination fee will form part of the Termination Information Statement given to the customer.
3. Prices applied only relate to the 'Area Fee' and 'Water Use' Fee. There are 8 Drainage Divisions. The Fees listed are for the 1st Division. Adjustments are made for other Divisions as applicable. Please refer to the 'Tariff Procedures' on our website: www.gmwater.com.au/pricing
4. Prices applied are for Service Level A / Drainage Division 1. Adjustments are made for various Service Levels / Divisions in the applicable Areas. Please refer to the 'Tariff Procedures' on our website: www.gmwater.com.au/pricing
5. Regulated Waterways are a natural system of streams, creeks and rivers that are controlled or 'regulated' water storages, enabling water to be released when it is required. These fees are payable by customers with regulated surface water licences.
6. These fees are payable by customers with unregulated surface water licences.
7. These fees are applicable to groundwater diverters and payable by customers with groundwater licences.
8. East Loddon North and West Loddon prices applied for Infrastructure Access and Water Allowance Storage are as per Division 1. There are 4 Divisions and adjustments are made for the other Divisions as applicable. Please refer to the 'Tariff Procedures' on our website: www.gmwater.com.au/pricing
9. These fees are prescribed under the Water (Lake Eildon Recreational Area) (Houseboats) Regulations 2013 (Vic).
10. The Water Share and Allocation Application fees recover the application fees prescribed by the Water (Resource Management) Regulations 2017 (Vic). These fees are collected by GMW but payable to the Department.
